**Hit Squads** are unique community events designed to provide teams with a fast-moving, fun and rewarding activity that really makes a difference to the local and wider community. With a glitzy start, worthwhile middle and a fun and often moving end, our Hit Squads provide teams with a meaningful event that supports worthy causes and provides participants with a really different team building experience.

### What's involved?

Hit Squad events kick off with a fun and upbeat 'game-show style' activity as teams battle it out to win their very own mystery brief case. Each case contains details of the Hit Squad tasks that each team must complete.

After a brief planning session, the teams are whisked off to their Hit Squad locations via the waiting transport to complete their tasks which could include anything from decorating a local community centre to running a bingo party for pensioners at a sheltered housing project.

Once on site, it's down to the team members to work together to ensure that they successfully complete their challenge in the allocated time. Each team will have an experienced instructor on hand to assist the teams and provide any further support they may require.

At a specified time, each team returns to the main venue in our fleet of vehicles and prepares for the final challenge - The Hit Squad Presentation. During this time, each team will be given two minutes to give a short presentation on their challenge to the rest of the groups. Teams are encouraged to be as creative, animated and comical as they like!

Hit Squads are totally unique events that really make a difference and provide

larger teams with a meaningful and worthwhile event. In addition, they challenge teams to work together for the good of the community and enable a huge amount to be achieved in a relatively short space of time.

### What have people said?

'A superb event that provided our team with a unique and innovative activity unlike anything we had done before'  
**Deloitte**

'Your Hit Squads event has made a huge difference to our organisation and provided us with a fantastic resource that has enabled us to complete tasks we would never normally be able to achieve - thank you'.
